

GM126-08GP

This image shows a close-up of a marble pattern with light beige and cream tones. The veins are thin, irregular, and run diagonally from the top-left towards the bottom-right. The overall appearance is clean and bright.

GM126-03GP

This image shows a close-up of a marble pattern with a warm, golden-brown or tan color palette. The veins are more pronounced and have a slightly wavy, organic appearance, running generally from left to right.

GM126-01GP

This image shows a close-up of a marble pattern in a dark charcoal or slate grey color. The veins are subtle and run diagonally, similar to the first pattern, but with a more muted and sophisticated tone.

GM126-02GP

This image shows a close-up of a marble pattern in a very dark, almost black, charcoal grey color. The veins are faint and run diagonally, providing a high-contrast and elegant look.
